

Environmental Protection Policy

KOSSCO is committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment. We will operate in compliance with all relevant environmental legislation and we will strive to use pollution prevention and environmental best practices in all we do

In adopting this Policy, KOSSCO supports, promotes, and practices positive conservation measures to:

- Comply with all applicable legal requirements and with other requirements to which the organization subscribes which relate to its environmental aspects. Where possible, seek to improve upon, all International, National, Regional and Local Laws and regulations concerning Environmental Protection.
- As far as is possible, purchase products and services for our own use and for customers that does the least damage to the environment.
- Develop cost-effective, controlled solutions to increase the efficiency of our business with regard to energy consumption, waste management and emissions.
- Minimise energy and water use within our buildings and processes in order to conserve supplies and minimise the consumption of natural resources.
- Ensure all employees conform to high standards of environmental protection and emphasize through environmental awareness programmes, individual responsibilities for sound environmental management.
- Maintain environmental monitoring programmes to ensure and demonstrate compliance with the Company's Policy and legislative requirements.
- Make available the necessary resources in order to set environmental objectives and targets and to ensure that these are continually reviewed and improved upon where appropriate.

Brian (H.Y.) CHOI
Chief Executive Officer
